

NATIONAL SEMINAR ON TEACHERS' TRAINING : THEORY AND APPLICATION

CONCEPT NOTE:

The history, theory problems connected to Teachers Training are as diverse as the education system itself. In modern education system, Teachers Training is a provisional training Of human resources. Who have decided to take up teaching as a profession by conscious choice, on the elementary and fundamental concepts of the discipline. A degree in Teachers Training is a mandatory qualification for teaching in the school sector because only trained teachers can handle delivery Of proper education to the & Children smoothly by knowing their psychology.

Meanwhile, the new Regulations Of the NCTE for introduction of 4-Years Integrated B.Ed. course has created a flutter and confusion amongst the B.Ed. Colleges and prospective students.

The main objective Of the Seminar is to arrange a scholarly and scientific deliberation on the areas concerning teacher training, namely, the history, theory, pedagogy, challenges, opportunities, and various implications encountered during conducting the programme in Institutions .

Looking at the present's scenario and realizing the need of the Focal Theme, Teachers Training: Theory and Application, the Falakata B. Ed. College, affiliated to W3UTTEPA is going to be organize one- day National Seminar on 11th May, 2019.

The objective Of the Seminar to provide a broad platform for interaction, discussion and exchange Of Innovative ideas among the educators, research scholars, resource persons, administrators and Other stakeholders from across the country working in deferent areas Of education in general and Teachers Training in particular.
